## Installation:

- Go to the downloaded folder and unzip the file to new folder c:\Documents\Eclipse4.3.2
- Open the extracted folder and double click the eclipse.exe to open the Eclipse IDE

- 
- The screenshot shows the 'Workspace Launcher' dialog box in Eclipse. The title bar is 'Workspace Launcher' with a close button. The main area has the heading 'Select a workspace' and the text 'Eclipse SDK stores your projects in a folder called a workspace. Choose a workspace folder to use for this session.' Below this is a 'Workspace:' label followed by a text field containing 'C:\Users\My Laptop\workspace' and a dropdown arrow. To the right of the text field is a 'Browse...' button. At the bottom left is a checkbox labeled 'Use this as the default and do not ask again'. At the bottom right are 'OK' and 'Cancel' buttons.
